

PIÊTRO BRAGA

COMPUTER ENGINEER & DEVELOPER

ABOUT

Since graduating, I have been working as a software developer, exploring tools, libraries, frameworks, programming languages, architectures, and even cybersecurity.

I have participated in prominent state-level projects, assisting public sector teams in consulting, sending, receiving, and storing information.

PROFESSIONAL SUMMARY

Systems Development Supervisor

- State Court of Accounts - MA
- September 2022 ~ Present

Responsible for creating and maintaining internal and external APIs and systems, querying databases, developing new endpoints, and improving existing code.
